

HIGH STRENGTH PLASTIC COOLING PAD

The ideal cooling system for
poultry houses with tunnel ventilation

PLASTIC COOLING PAD

CREATE A COMFORTABLE BREEDING ENVIRONMENT

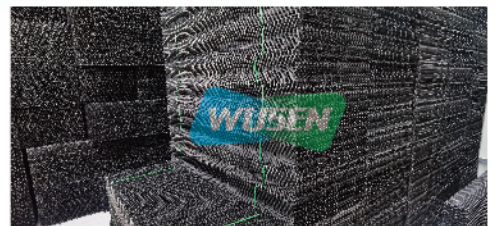

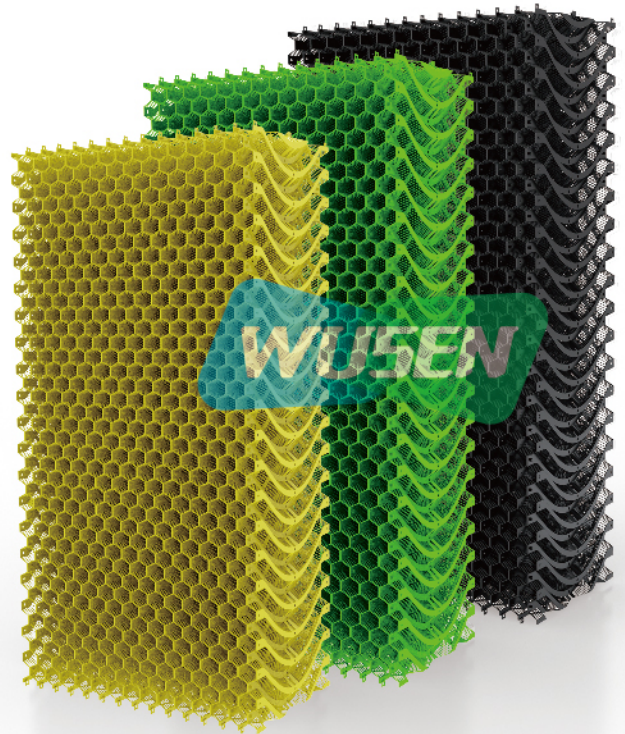

► 创新技术 · 推动变革

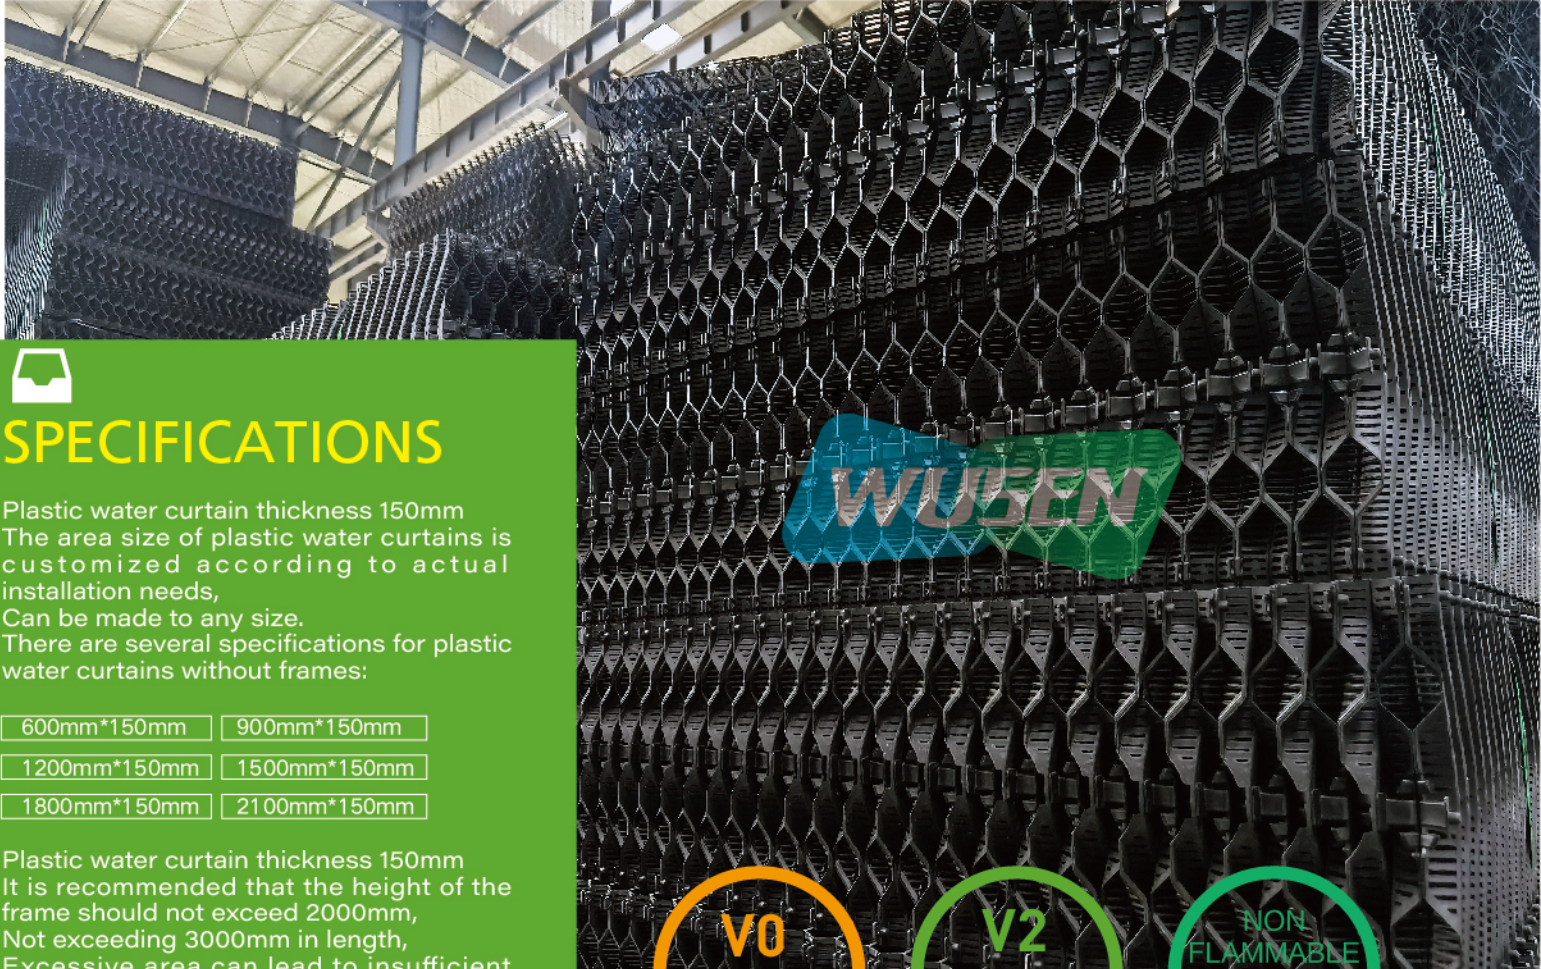

Innovation Technology Drives Change

GUOYU Plastic Evaporative Cooling Pad is a new product produced by polypropylene injection molding, which is optimized based on the application of paper cooling pads. Plastic cooling pads not only have the cooling effect of paper cooling pads, but also have the characteristics of water corrosion resistance, non mold and insect resistance. Their normal service life can reach more than 10 years. Due to the long service life of plastic liners, there is no need to replace the liners during use, greatly reducing the material costs and high labor costs that customers pay for replacing the liners.

Features

- CoolPads consist of polypropylene and are therefore easy to clean and highly robust.
- Available in standard dimensions 1000 / 1,200 / 1,500 / 1,800/ 2.000/ 2.500 x 600 mm; Custom heights up to max. 3,000 mm available on enquiry
- Can replace standard paper pads without any problem
- Lower pressure loss compared to paper pads
- Long service life
- Length is flexible (up to 24 m/1 pump). Height max. 2.5 m.
- Quick and easy assembly
- High cooling performance

SPECIFICATIONS

Plastic water curtain thickness 150mm
 The area size of plastic water curtains is customized according to actual installation needs,
 Can be made to any size.
 There are several specifications for plastic water curtains without frames:

- 600mm*150mm 900mm*150mm
- 1200mm*150mm 1500mm*150mm
- 1800mm*150mm 2100mm*150mm

Plastic water curtain thickness 150mm
 It is recommended that the height of the frame should not exceed 2000mm,
 Not exceeding 3000mm in length,
 Excessive area can lead to insufficient strength, making it difficult to use and install. Can be made to any size.
 There are several specifications for plastic water curtains without frames:

SERVICE & SUPPORT

Wholeheartedly serving your needs

As a long-term partner of WUSEN, good service is particularly important when practical support is needed.
 We will provide professional services and support hotlines for thousands of customers like you.
 Please feel free to contact us when you need assistance with emergency services, product inquiries, and spare parts support. Throughout the entire process from design to project delivery, if you need any assistance, we are always available to assist you.

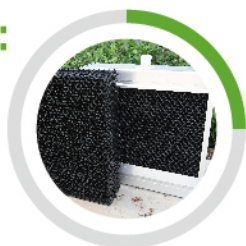

好用耐用 · 高效安全

Easy to use, durable, efficient and safe

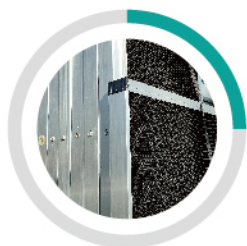

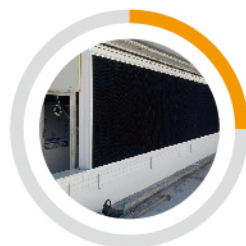

边框可选配：

Optional
Stainless steel frame

Optional
Aluminum alloy frame

Optional
PVC gutter frame
